

Cody Hosterman Talks VVols on VMware vSpeaking Podcast

Cody Hosterman stopped by VMware HQ and catch up with some good friends at VMware for an episode of the vSpeaking Podcast alongside VMware VVol engineering manager Patrick Dirks hosted by [Pete Flecha](#) and [John Nicholson](#). The topic? VVols of course!

Check it out! A lot of VVol stuff planned this year at Pure, so, if my enthusiasm on the podcast is any indicator, I am pretty excited!
