

# SaaS Heroes to Share Their Tips @ACCELERATE

Every SaaS company lives and breathes data for just about every aspect of the business. The heroes in these data-centric businesses tend to be savvy employees who discover ways to help improve SLAs, time-to-market and margins.

The countdown has begun to Pure//Accelerate 2018, our flagship conference where we explore the biggest trends and even bigger ideas in the industry!

A can't-miss session at this show for any IT professional in a SaaS company is the “**Becoming a Data Hero in a Software-Driven Business**” session on May 23rd at 10:30 am (Session# **162680**). We have assembled an all-star panel of peers from leading SaaS providers including ECi Software Solutions, eMoney Advisor, and PRGX. This panel will interactively share their experiences, specific use cases and strategies which will help you unlock data value and elevate your career.

Still need to register for the show? You're not too late! [Click here to register on Pure's website.](#)

You can also follow along with our Twitter handle [@PureStorage](#), where we will be posting conference takeaways and insights.
